DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group I in the reply filed on 04/04/2008 is acknowledged. The traversal is on the ground(s) that the groups are sufficiently interrelated that they should be examined together and a search would not be burdensome. This is not found persuasive because the two claimed methods are so divergent, that they entail widely different classification areas. The treatment of bone requires a cross search in class 623/16+ Whereas the arterial prosthesis of the claims would need a search in 623/1.1+ . Both are in addition to the required search areas of class 424/423+. As such, the additional search would indeed be burdensome.

The requirement is still deemed proper and is therefore made FINAL.

Claims 21 and 25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 04/04/2008.

Allowable Subject Matter

Claims 1-3, 5, 7, 16-20, 22 and 24 are allowed.

Conclusion

This application is in condition for allowance except for the following formal matters:

Cancellation of non-elected claims 21 and 25.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
